Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.

- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 4/29/26 at 11:26:52 AM (CDT). Other

Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Airbag Deployment

Occurs when the driver, passenger or side airbag has been used or deployed during a crash or other incident. If an airbag has been deployed, it must be replaced by a qualified technician. Have this car inspected by a mechanic prior to purchase.

Damage Indicator

Damage can be a result of many different types of events. Examples include contact with objects (other cars, trees, traffic signs, road debris, etc), vandalism, or weather-related events. Not every damage event is reported to CARFAX. As details about the damage event become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

Federal Odometer Act

The Federal Odometer Act requires a seller to disclose the vehicle's mileage on the title when ownership is transferred. Congress enacted this Act to prohibit odometer tampering and to protect consumers from mileage fraud. Under this act, sellers must disclose any issues with the vehicle's odometer. These disclosures translate into the Exceed Mechanical Limits and Not Actual Mileage titles.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Junk Title

A Junk Title is issued on a vehicle damaged to the extent that the cost of repairing the vehicle exceeds approximately 75% of its pre-damage value. This damage threshold may vary by state. The majority of states use this title to indicate that a vehicle is not road worthy and cannot be titled again. Some states treat Junk titles the same as Salvage.

Not Actual Mileage Title

When the seller certifies, under the Federal Odometer Act, that the odometer reading does not reflect the vehicle's actual mileage. This may occur because the odometer was tampered with, broken, or replaced.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Total Loss Vehicle

An insurance or fleet company declares a vehicle a total loss when a claim exceeds approximately 75% of its pre-damage value or if the vehicle is stolen and not recovered. This damage threshold varies by company. These companies typically take possession and obtain the title. Not all total loss vehicles result in a DMV-reported branded title. This may occur when an insurance company's definition of a total loss is different than the state DMV's definition for a branded title or when the owner of the vehicle is a self-insured company, like a fleet or rental company.
